

# Gun Cases

Gun cases are an absolute must. Protection of your valuable firearm is the primary requirement, and different types of cases offer different degrees of protection.

For the best protection available today, we have selected the injection molded, fiber reinforced, ABS plastic **Browning** Travel Vault™. These cases were developed for the U.S. Navy Seal Teams which drop their equipment out of airplanes without parachutes. They use these cases, and their equipment survives undamaged. These cases are made by **Pelican** and were formerly marketed under the **Pelican** name. *The cases carry a lifetime guarantee!* Modern production methods allow this case to be sold for less money than the common aluminum case. There is a weight penalty as the **Browning** case is significantly heavier. (The **Browning** Double Rifle case weighs 23 lbs.) The net result is that we have more protection and less cost--an excellent value. Both the Double Rifle and the Take Down Shotgun **Browning** cases feature rollaway wheels, a folding trunk handle and reinforced bumper corners for added protection for your firearms.

*Pelican Sight Case*

*Browning Double Rifle Travel Vault™*

There are seven different sizes of **Browning** Travel Vaults™ available, ranging from the double rifle case to the double sight case to the equipment case.

Your case doesn't have wheels?

Check out the Wheel & Handle Kit at the end of the Gun Case section to convert cases to working luggage carriers!

*Your case doesn't have wheels?*

*Check out the Wheel & Handle Kit at the end of the Gun Case section to convert cases to working luggage carriers!*

Shooters need a small, durable case to protect their sights. The **Pelican** sight case delivers. It is one of our most popular products. It will easily hold two sets of sights and is available in blue, yellow or black. (The sight case and the general equipment case are still marketed by **Pelican**. Please see the equipment bag section for information on the **Pelican** general equipment case.)

In addition to rifle, pistol and shooting accessory cases, these cases have proven versatile by doubling as travel cases for cameras and ammunition. Use your imagination - these cases are handy for a myriad of uses.

With the exception of the double rifle case, the foam lining is "pick and pluck." That is, it is made with perforated squares for easy removal to customize the case to fit any item. Replacement foam sets are available for all of the cases. You may also order just the single center piece of replacement foam for the double rifle case.

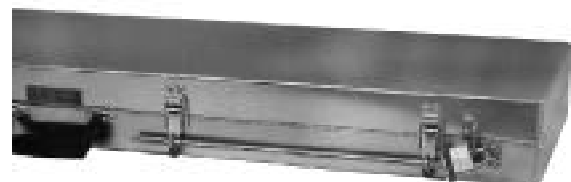

**ICC Aluminum Utility Case**

**ICC Aluminum Large Rifle Case**

**Gunsmithing, Inc.** is now carrying the **ICC** line of aluminum gun cases. The **ICC** cases are made of .063 Marine grade aluminum and feature four steel latches, a locking bar and full length piano hinge with Heli-arc weld construction. The weight of the Large Double Rifle case is only 17.5 lbs. A full range of sizes are available including Large Double Rifle and Large Four Rifle. All **ICC** and **KK Air** cases come with a 2-year warranty.

The **KK Air** Case is made of still heavier aluminum but is lighter than the **Browning**. The **KK Air** has the same features as the **ICC** but is made of .080 material. The large Double Rifle size weighs 21 lbs.

**ICC/KK Air Locking System**

**Doskocil**  
Single Rifle (48x9x4) 6010101  
Double Rifle (52x11x4) 6010202  
Double Scoped Rifle (52x13x4) 6010252

**Doskocil** offers a foam-filled plastic shell case as the next step above a soft case on the protection scale. It should be used if several guns are to be transported together or are to be carried in a truck or bus. This is the very minimum required by the airlines and offers only minimal protection from airline abuse. The brand is an excellent value for this requirement with many years of experience proving this to be a top quality plastic case.

*Doskocil Double Rifle Case*

**MTM**  
Sportsman's Utility Case 60SU411

**MTM** has a new Sportsman's Utility Box. It will carry up to four handguns and the associated gear and ammo for a trip to the range. Contents are well protected. As with all **MTM** products, the cost is very low, and the value is high.

*MTM Sportsman's Utility Case*

**Gun-Ho**  
4 Gun Pistol Case 60904  
5 Gun Pistol Case 60905

*Gun-Ho Pistol Case with Gil Hebard Spotting Scope Holder*

The **Gun-Ho** Competitor II case is everything a serious pistol shooter needs. Guns, scope, ammo and accessories can be carried in one compact kit. At the range, it will open up and become a scope stand with everything right at hand. The slide-out tray will clamp your guns securely and safely.

The case is available in either 4-gun or 5-gun configuration. The 5-gun not only has more capacity for everything but because of its wider base, it is more stable on a windy shooting bench.

**Gil Hebard**  
Spotting Scope Holder 60902

The **Gil Hebard** Adjustable Scope Holder is designed for the 4-gun and 5-gun **Gun-Ho** Competitor Case or any similar ones. It will position a scope anywhere in a 15-inch circle which allows perfect matching to your shooting position. It will collapse to the case lid for scope storage. As the lid swings down, the scope will be positioned under the gun tray.

<b>Creedmoor Sports</b>	
Soft Case (48")	22N151
Soft Case (52")	22N152
Service Rifle Case	22N150
AR15 Rifle Case (41")	22N153

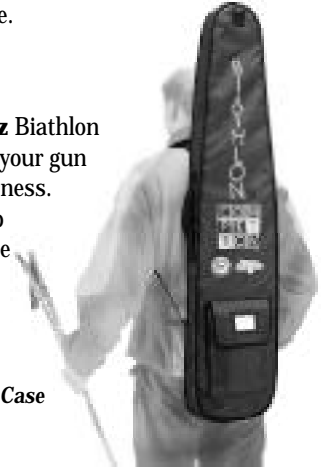

*Creedmoor Sports Soft Case*

If you are in control of your gun at all times, such as traveling from home to the range in your own car, a good cloth case offers adequate protection and takes the least amount of room. Keep in mind that target rifles are the heaviest of sporting firearms and require the best of fabrics and zippers. We have selected the **Creedmoor Sports** case as the best of this type.

<b>Anschütz</b>	
Biathlon Soft Case	379210
<b>J.G. Anschütz</b>	
Carrying Harness	121927U16

Protect your biathlon rifle with the **Anschütz** Biathlon Soft Case. This moisture resistant case protects your gun during storage or while using the carrying harness. The case has a web handle on the side, a top hanging loop and a pouch for accessories on the front.

*Anschütz Biathlon Soft Case*

The traveling rifle shooter has a logistics problem, particularly when traveling alone. He or she must move a heavy rifle case, a heavy equipment case or bag and a suitcase for clothing around airports, motels and ranges. Total weight can easily exceed 150 lbs.

This logistics problem can be solved quite effectively with some special hardware made by **Gunsmithing, Inc.** The Wheel & Handle Kit for large cases is installed or removed in less than a minute. Small aluminum parts are permanently attached to your gun case. The wheels and rods are carried in your equipment kit. The Wheel & Handle Kit features aluminum extension rods to turn your gun case

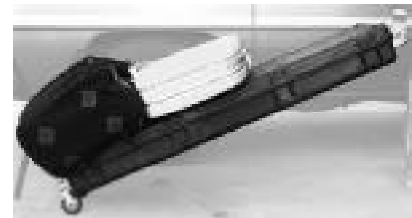

into a wheeled luggage carrier. When needed, you simply snap the parts into place on the gun case, load everything else on top and move on.

<b>Gunsmithing, Inc.</b>	
Wheel & Handle Kit	10070

*The Wheel & Handle Kit, with extension rods*

The hardware is top quality. Sealed heavy duty industrial grade wheels will work on pavement, grass or gravel and last for years. Because they are removed from your case, the airlines do not have an opportunity to damage them.
